DIDSBURY SCENE OF FREIGHT WRECK SUNDAY MORNING

A smash-up which blocked the main line for ten hours occurred on the C.P.R. right of way Sunday morning last about 9:30 at the crossing by the Crystal Dairy, south of the depot.

Ten freight cars of a northbound freight, all of which were loaded with company freight — railroad ties and steam coal, left the rails at the switch frog and presented a hectic pile of wreckage, when a cattle car laden with coal broke amidships under the strain, one car in front of it and eight behind it leaving the rails.

Two wrecking trains, one from Red Deer and the other from Calgary, and a crew of about 50 men, worked seven and a half hours clearing the right of way. The noon southbound passenger was held at Olds for the afternoon but proceeded south about 7:15 and the 6:15 p.m. northbound occasioned only a short delay.

A large crowd of spectators was on hand most of the forenoon and all afternoon watching the cranes and crews at work. Tourists passing through the town were attracted by the sight and numerous cars were lined up to view the scene.

The wrecking crews left Monday evening last after completing their operations.

WEDDINGS

A very pretty wedding took place on Thursday evening, July 4th, at 5:30 p.m. at the home of Mr. and Mrs. Wm. Wright of Loughheed, Alta., when their daughter, Eleanor, became the bride of Mr. Ellis Carver of Didsbury.

The bride was gown in white crepe back satin, with veil, and carried orchid sweet peas and lily-of-the-valley. She was given in marriage by her father.

The bridesmaid was Mariam Wright, sister of the bride. She was gown in blue satin crepe and carried pink sweet peas.

Mr. John Wright, brother of the bride, acted as best man.

The party stood under a lovely arbor of white lattice-work and greenery on the veranda. Rev. Arthur Grobe, of Stettler, officiated, assisted by Rev. Walker Wright, of Nanton.

Mrs. Arthur Grobe sang "O Promise Me," accompanied at the piano by Mrs. Fowler.

Mrs. Carver is a graduate of the Royal Alexandra hospital in Edmonton, where she was a member of the staff for two years. She later took charge of the operating room in the Wainwright hospital.

Mr. Carver received his B.A. from North Nazarene College in Nampa, Idaho, and B.D. degree from Pacific School of Religion in Berkeley, Cal., and at present is a medical student in the University of Alberta at Edmonton.

After the ceremony a very delightful supper was served to all present, after which Mr. and Mrs. Carver left by motor to spend their honeymoon in the Canadian Rockies. On their return they will live near Didsbury.

Summer Re-Union O.S.A. Alumni Ass'n

The Summer Reunion of the O.S.A. Alumni Association is to be held at the Olds School of Agriculture on Thursday and Friday, July 18th and 19th. The Summer Reunion is one of the many pleasant and enjoyable occasions that take place at the O.S.A. each year.

The programme for the forthcoming Reunion includes the unveiling of the Honor Roll bearing the names of ninety-some O.S.A. graduates who served in the World War. This function is to take place on the first day of the Reunion at 2:30 p.m. The other items on the programme will include picnic suppers on the lawn during both evenings, playing of games, business meeting of the Alumni Association

DIED

Thursday, July 4, 1929, at Didsbury, Beatrice Elizabeth Madelein Wilton-Clarke, beloved wife of Mr. H. Wilton-Clarke, Pittsburg, and daughter of Mr. and Mrs. J. E. Liesemer. Aged 32 years, 5 months.

The funeral services were held at the home of Mr. and Mrs. J. E. Liesemer, Sunday, July 7th at 2:30, Rev. C. J. Hallman officiating. Interment in Didsbury cemetery.

and a survey of the experimental plots and the inspection of the plots and flowers.

The Alumni members and their friends are all invited to attend on one or both of the days of the Reunion. It is felt that the time and money spent in taking in this function will be well worth while.

FORMER LOCAL OLD TIMERS CELEBRATE GOLDEN WEDDING

While many people live to a good old age, it is rarely that two people live as husband and wife for the long span of fifty years. The joy and privilege of such married life has been given, however, to Mr. and Mrs. John Bellamy, former residents of this district, who celebrated their golden wedding on June 14 at Salmon Arm, B.C., where they have resided since 1917.

About 200 attended the banquet, among others being the Mayor of that city and the M.L.A. for that constituency, and others, given by the couple in honor of the occasion. On behalf of the Salmon Arm Masonic Lodge, R. W. Bruhn, M.L.A., presented Mr. Bellamy with a gold watch suitably inscribed, and chain, from the members of the lodge as a token of their appreciation and esteem.

On behalf of the six sons, the oldest boy, John H., who resides in Saskatchewan, presented his mother with a basket of yellow flowers which had hidden in it a bag containing a goodly number of gold coins, and expressed thankfulness that they had been spared to meet on this occasion.

Fifty years of happiness says Mrs. Bellamy have been theirs. Ups and downs there have been but nothing of any seriousness.

Mr. and Mrs. Cliff Bellamy and family of Didsbury returned recently after being present for the occasion.

LOCAL & GENERAL

Dr. J. L. Clarke motored to Edmonton over the week-end.

Mr. and Mrs. Hugh Lee were visitors at the Calgary Stampede on Wednesday.

Mesdames Russell, Morton, Park, Axtell and Burrows were all visitors to Calgary on Tuesday.

Rev. W. W. Kreuger of Regina will conduct the services in the Ev Church this Sunday. Sunnyslope Schoolhouse at 2 p.m.

Due to an accident caused during the operations of the wrecking train, Monday, the telephone cable crossing the tracks near the hospital was torn down with three poles. Subscribers east of that point and including the Hospital, were without telephone communication for most of the day. The lines were restored early Tuesday evening.

RADIO MAY AID MAN IN STUDY OF WILD LIFE

Harry Allen

Do animals converse? Harry Allen, famous New Brunswick guide says they do, and he speaks from the experience of a lifetime spent in the woods which flank his seventy-eight mile lease of the Cains River. Within certain narrow limits, he insists, the language of the wild can be counterfeited by man with such skill that it deceives the animals themselves. Thus, the call of the cow moose in the mating season is more often than not a successful lure in bringing the bull to the hunter. The cry of the hunting wolf and the honk of the migrating goose are easily imitated by the initiate and are easy of interpretation. There is, however, nothing particularly new in this. What is new, is Mr. Allen's claim that animals communicate with one another by sounds inaudible to the human ear. That they do converse and communicate one with the other is demonstrated in a thousand ways each day. What our well-known guide suggests is that radio will eventually solve the question and be the means of interpretation of the animal communication.

That the human ear is sensitive to but a very narrow and limited range of vibrations is in fact certain. What Mr. Allen hopes to prove shortly is that all animals are sensitive to, and make use of, "wave lengths" outside the range of mankind.

"It is a common occurrence in the woods to see a cow moose leave her calf, or a deer her fawn," says Mr. Allen by way of example. "I have seen it hundreds of times. Every time the mother animal has instructed her young, in a language inaudible to human ears, not to stray. That language was quite intelligible to the young, but although I have sometimes been within touching distance, I have never heard the faintest sound, beyond at most, the blowing out of air from the nostrils which had no apparent significance. The young of the moose or deer will remain exactly as its mother left it, even though she be gone for half an hour at a stretch. More than that—in case of extreme need it will "radio" its mother without apparent sound.

"I have experimented on the problem many times. In each case it has been the same. I have waited until the mother has gone some distance; then have approached and stroked the young animal. Beyond a slight twitching of the skin, it has not moved, but it must have sent out a call, for almost immediately I would hear the crashing return of the mother through the undergrowth. At such moments I would not pursue my investigations further."

Mr. Allen has cited many other "demonstrations" to members of the Tourist Department of the Canadian Pacific Railway who are encouraging him to develop his theory still further as he engages in the role of guide, philosopher and friend to the fisherman and the hunter.

Scarlet Clothes To Help Autoists See Tots

A certain person was motoring on a road in Scotland crowded with motor cars, he noticed in a playground a group of children wearing scarlet jumpers. The bright red was a signal to the motor driver, for it sheltered the little child.

When a child is clad in sober grey it can hardly be seen even a few yards away. But the little jumper holds a n unmistakable danger signal.

Therefore a new Playall has been made with the top part red and the bottom khaki and are on sale at J. V. Berscht's.

Mr. Dave Irwin informs us that in a letter received from Mr. Walter Scheidt, who with Mrs. Scheidt is visiting with his parents in Hillsboro, Ore., that Mr. Scheidt is quite seriously ill with ulcers of the stomach, and that a trip to a specialist in Portland will possibly be necessary. It is hoped that Mr. Scheidt will make a speedy recovery and return to his home in Didsbury much improved in health.

Miss Majorie Gardiner of Edmonton is visiting with Miss Dorothy Ranton.

Mrs. Stanley Michael left on Tuesday evening's train to visit in Calgary for a week.

Ladies' Shoes & Hosiery

We have just received a new shipment of LADIES' SHOES including Blondes, Tans and Blacks. Prices from—

\$3.95 to \$7.00

We stock all widths from B to EEE and combination lasts, also a special line of ORTHOPOEDIC SHOES at \$6.50

Paris Inspired Hosiery Shades

Summer needs require new subtle tints in hose, and Lucile—foremost colorist of Paris—sends many charming colors artfully reproduced in exquisite—

Holeproof Hosiery

They are ready now for inspection in our "Holeproof" department. Prices from—

75c to \$1.95

Playalls-Safety Suit

A new idea in Kiddies' play garments

Top part of garment Turkey Red. Bottom 6-Tests Khaki Drill.

WRIGLEY'S

WORLD HAPPENINGS BRIEFLY TOLD

Manitoba contemplates celebrating its diamond jubilee on July 15, 1930, it was announced at Winnipeg by Premier John Bracken.

The London Daily Sketch said Premier MacDonald had refused Leon Trotsky, former Russian war chief, permission to enter Great Britain as he requested recently.

The Japanese naval training cruisers "Ahama" and "Iwate" will visit Vancouver on August 10-12, it was stated at the Japanese consulate there.

Albert Voight, a German, has left Seward, Alaska, in a 16-foot, collapsible walrus skin sail-boat for New York. He hopes to complete his 6,700-mile trip in six months.

Charles Colebrooke Patterson, eldest son of the late Hon. J. C. Patterson, former lieutenant-governor of Manitoba, is dead. He was born in Ottawa, in 1868, and for a number of years was his father's secretary.

Flight tests will soon be made of television apparatus calculated by its inventor, C. Francis Jenkins, Washington physicist, to reproduce conditions as seen from an aeroplane, on a screen miles away.

Japan's co-operation in any disarmament program negotiations that Premier Ramsay MacDonald and Ambassador Dawes may have begun has been promised by Premier Tanaka.

France is preparing to bring into force a wide scheme of social insurance. It will cover sickness, old-age incapacity, maternity benefits and, to a certain extent, unemployment.

Soft corns are difficult to eradicate, but Holloway's Corn Remover will draw them out painlessly.

Makes For Unemployment

One of the causes of unemployment in Europe is that our working lives have been prolonged, declares a statistician. At one time, he says, "too old at forty" was the cry throughout the world, but we have now found that we are not too old at 60 or 65.

A Severe Attack of Dysentery Checked by 4 Doses

Mr. I. Burtonwood, 620-22nd St. W., Saskatoon, Sask., writes: "My child, when only seven months old, had a very severe attack of dysentery, and after three days' treatment with other things we decided to use

On this day his bowels had moved twenty-three times in eleven hours, but four doses checked it.

"A short time ago we offered it to a neighbor whose baby was troubled, and it too was relieved within thirty hours.

"We both always keep a bottle of 'Dr. Fowler's' handy at all times. This medicine has been on the market for over 80 years; put up only by The T. Milburn Co., Ltd., Toronto, Ont.

W. N. U. 1791

Declares Allies Fear Of Germany Absurd

Only Nation Without Arms Says
Minister Of Defence

Dr. Wilhelm Groener, minister of defence, in a speech reviewing Germany's military policy charged that the states victorious in the world war have done nothing along disarmament lines and endeavored to show that it was absurd for the allies to claim they could not disarm until they were sure of not being attacked by Germany.

Speaking of present military forces, he said:

"France has, on European soil, 27 divisions; Belgium six; Poland 30, and Czechoslovakia 26 brigades, a total of 76 divisions compared with Germany's seven. Who, I ask, needs security? I can't leave unmentioned that besides these troops, the other nations also possess aviation squadrons, heavy artillery and powerful reserves of trained men and war material of a kind we do not possess at all."

A WARNING TO MOTHERS

Watch the Health Of Your
Little Ones At All Times

No mother can expect that her child will escape all the ills to which babyhood and childhood are subject, but she can do much to lessen the severity of these troubles. The mother should be constantly on her guard to prevent childhood ailments, or if they come on suddenly as they usually do, to have the means at hand to relieve them. Thousands of mothers have found Baby's Own Tablets the ideal remedy for little ones. Thousands of mothers always keep the Tablets in the house as a safeguard against the sudden illness of their little ones.

Baby's Own Tablets are a mild but thorough laxative. They regulate the bowels; sweeten the stomach and thus banish constipation and indigestion; break up colds and simple fever and make the cutting of teeth easy. The Tablets are absolutely guaranteed free from injurious drugs and may be given to the youngest child with perfect safety. They are sold by medicine dealers or by mail at 25c. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Speckled Trout For Jasper Park Lakes

Anglers May Expect Real Sport In
Canada's Largest Mountain
Playground

So successful was the experiment made by the Dominion Government last year in stocking Maligne Lake, in Jasper National Park, with trout, that a quarter of a million more fry are now growing up in the hatchery there, and will be turned loose in the great glacial lake in a few weeks time.

As eggs, the 250,000 travelled to Jasper from Cresco, Pennsylvania, last winter, and so carefully was the precious freight handled by the Canadian National Express that only 70 of the eggs failed to hatch. Arrived at Jasper, the eggs were given into the care of Warden Herbert Davis, who is carefully nursing them, along. He feeds the multitude four pounds of chopped liver a day and keeps the water moving and at a proper temperature.

Early in June the fingerlings will be taken out of their trays and transported in tins to Maligne. "The fish put in there last year," says R. Langford, supervising warden, "have done marvellously well and have grown to a good size. They and the new batch are speckled trout. We expect a shipment of rainbow trout in a few weeks for Cabin Lake.

How Names Were Given

Europe is derived from Europa, in Greek mythology a woman who was carried off by Jupiter, who came to her disguised in the form of a white bull and bore her to the island of Crete. The Greek word is said to be derived from the Semitic word meaning darkness, evening, sunset. Asia is said to derive its name from the Semitic word "acu" meaning going forth, or rise of the sun.

"What would you say to anyone who sits himself down on your hat?"

"I should call him an idiot a stupid ass."

"That's all I wish to know — you are sitting on mine!"

A Remarkable Hotel

Built On Swiss Alps and Is 11,480
Feet Above Sea Level

One of the most remarkable hotels in the world is the Jungfrauoch, perched high up on the Jungfrau, in the Bernese Alps, Switzerland, 11,480 feet above the level of the sea. Built of stone and iron, the hotel is welded, as it were, into the sheer rock of the famous mountain. Snows surround it eternally, and, in winter, it is buffeted by the fiercest blizzards of the Alps. But it gives hospitality and warmth to climbers and to the tourists who visit the mountain by the funicular railway from above Interlaken. From the windows of the hotel lounge one often looks out upon a world of clouds, through which some of the high peaks of the Bernese Oberland stand out like rugged islands.

Nearly every member of the hotel staff is an expert mountaineer. For though the funicular runs to within a short distance of the hotel there are often long spells during the winter when the heavy snows prevent all communication with the outside world. Then, the only means of reaching civilization is by ski along dangerous mountain tracks. The Jungfrauoch hotel had its origin in a ramshackle shelter hut built by workmen when engaged in the construction of the funicular in 1912. From this dwelling where they ate their simple meals of beer and bread has arisen the hotel that is unique in the world.

Wise and experienced mothers know when their children are troubled with worms and lose no time in applying Miller's Worm Powders, a most effective vermifuge. It is absolute in clearing the system of worms and restoring those healthy conditions without which there can be no comfort for the child, or hope of robust growth. It is a most trustworthy worm exterminator.

Taxi Driver (after speeding along for 30 minutes) Say, you forgot to tell me where we are going.

To Make Huge Flagpole

Giant Stick Of Timber Shipped From
B.C. To Toronto

A giant stick of timber, from which when converted into a flagpole the Union Jack will next year float at the Canadian National Exhibition, Toronto, was successfully loaded on the Canadian National S.S. Canadian Ranger, which has taken it to Montreal, whence one of the Canada Steamship Line steamers will convey it to Toronto.

The stick, which is second only in size to that donated a few years ago to Kew Gardens, London, England, was located on the timber limits of the Timberland Lumber Company, on Vancouver Island, and has been donated to the Exhibition as an advertisement of the huge size of British Columbia trees. It will be kept a year to thoroughly season and when trimmed down it will measure 184 feet in length, 34 inches diameter at the base and 10 inches at the top.

To stow such a huge timber required some skill, as the big stick is longer than the open deck space on the vessel. It was, however, loaded without any mishap on the top of deckload of lumber on the "Canadian Ranger" at the Burrard Drydock.

For Catarrh—It is one of the chief recommendations of Dr. Thomas' Electric Oil that it can be used internally with as much success as outwardly. Sufferers from catarrh will find that the Oil when used according to directions will give prompt relief. Many sufferers from this ailment have found relief in the Oil and have sent testimonials.

Canadian Delegates For Press Conference

Dominion Will Have Largest Representation At Imperial Meet
Next Year

J. H. Woods, managing editor of the Herald, Calgary, Alta., recently sailed for London, where he will consult with the council of the Empire Press Union in connection with the Canadian contingent of press delegates to the Imperial Press Conference, being held next year. Mr. Woods said that Canada will be sending 20 delegates to represent the 60 members of the Union in Canada. This is the largest representation of any part of the Empire.

The last conference was held in Australia in 1925, and the one previous to that, in 1920, was held in Canada. The Imperial Press Conference is being held in London, England, in June of next year.

"Skinny" Women! Gain Weight Quick

New IRONIZED YEAST adds
pounds in few weeks. Results
guaranteed—or pay nothing

Why let a "skinny" body, bony limbs and ugly hollows ruin your charm? Ironized Yeast adds 5 to 15 pounds often in few weeks; clears your skin; banishes wrinkles; gives you new strength. People ask—how does Ironized Yeast work so fast.

Ironized Yeast is two great tonics in one. Weight-building YEAST treated with two kinds of strengthening, blood-enriching IRON used for years by highest medical authorities. The Yeast is also treated with Violet Rays to increase its effectiveness.

Only when Yeast is Ironized is it most effective. Iron is needed to bring out the weight-building, strengthening values of Yeast.

Pleasant tablets. No "yeasty" taste. No gas or bloating.

No excuse to stay "skinny," weak or pimply. Feel and look years younger. Get full size treatment of Ironized Yeast today from any druggist. If not delighted with quick results, get your money back. If inconvenient to buy from druggist, send \$1.25 direct to Canadian Ironized Yeast Co., Ltd., Fort Erie, Ont. Desk 426-MX.

The "Canadian Mediterranean"

Montreal Journal Sees Important
Future For the H.B.R.

Commenting on the completion of the Hudson Bay Railway, Le Devoir, of Montreal, edited by Mr. Henri Bourassa, expresses the belief that the new line to the Canadian Mediterranean will prove a valuable addition to Canada's transportation system, not only as a development road, but as an export route. The richness of the country through which the railway passes has already been proved. Le Devoir states, foreseeing large mineral, pulp and paper, and metallurgical establishments along the road. It applauds also the manner in which the Government is amassing data on the navigability of the Bay, and concludes: "It is improbable that the route will become a serious competitor of the St. Lawrence, but it is sure to be useful, and will become so more and more as seamen become familiar with navigation conditions."

Minard's Liniment for sick animals.

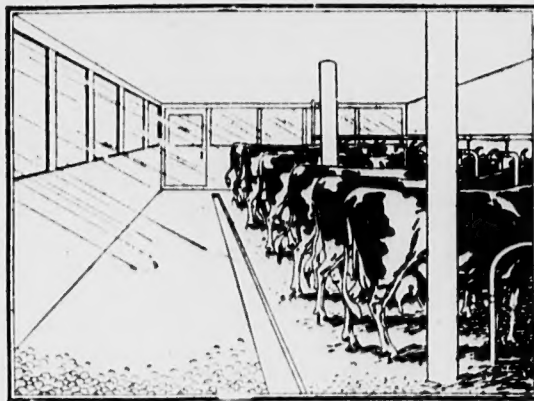

University Of Alberta

The University of Alberta has just celebrated its twenty-first birthday. The first president, Dr. H. M. Tory, now president of the National Research Council of Canada, and the first premier of the province, Hon. A. C. Rutherford, participated in the anniversary ceremonies.

WINDOLITE

The Improved Glass Substitute

MADE IN ENGLAND

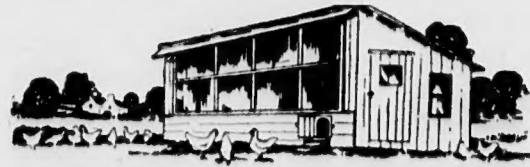

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs., while a square yard of glass of ordinary thickness, weighs about 135 to 140 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

COMES WITH A MESSAGE OF HEALTH

THE sun is the all-powerful life producer. Nature's universal disinfectant and germ destroyer, as well as stimulant and tonic. WINDOLITE is the sun's most important ally.

Medical research has definitely proved that from the point of view of Health and Hygiene, the most effective among the sun's rays, are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that it is a most effective substitute for glass, that it freely admits the Ultra-Violet rays, and that its use has a most beneficial effect on the growth and development of plants and chickens and on the well-being of cattle, enabled for the first time to have healthy light instead of darkness in their sheds.

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, given a new stimulus to poultry breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health of cattle and is now being used in domestic and household requirements.

CHAPTER I.

Cool gray dawn of a work day in the modern Babylon—New York. The black curtain of night rose silently, seeming to trail ghostly spirals of mist. Against the sky's flat monotone the irregular and fantastic shapes of the skyscrapers stood out boldly—powerful and mysterious creations of Man.

In the dark canyons of the city streets dark figures moved purposefully toward their destination—factory hands with lunch kits tucked beneath their arms, stalwart steel-structure men who carried the pride of craft in their way of walking, slim girls with the vivid memory of the night's romantic dreams still shining in bright eyes.

But uptown, in the glittering play places of the city, was a sharply contrasting scene. In the "roaring forties" and "nifty fifties," where denizens of Broadway and fashionable Park Avenue "make whoopee" through the sleeping hours, the night clubs were ending their day. Through the tinsel doorways came lovely ladies in ermine coats and jeweled slippers, and men with silver-topped walking sticks, and top hats at rakish angles. Their heavy listlessness was broken occasionally by hysterical laughter.

In the lobby of the resplendent Plaza Club, Marcus, the revue producer, helped a pretty young actress into her fur coat. As he did so his arm went around her lingeringly for a moment, while she turned her graceful head and glanced knowingly into his eyes. Another man and girl of the Marcus party waited nearby.

From Mother of Six

"I think Lydia E. Pinkham's Vegetable Compound is wonderful! I have had six children of which four are living and my youngest is a bonnie baby boy now eight months old who weighs 23 pounds. I have taken your medicine before each of them was born and have certainly received great benefit from it. I urge my friends to take it as I am sure they will receive the same help I did."

—Mrs. Milton McMullen, Vanessa, Ontario.

Lydia E. Pinkham's
Vegetable Compound

Lydia E. Pinkham Med. Co. Lynn, Mass. U. S. A.
2nd Canadian Distributors

W. N. U. 1791

"Well, let's call it a night," suggested Marcus, his hand resting affectionately on the girl's arm.

"No—ple-ase! Let's not go home. We can have lots of fun yet."

Her tone was wheedling, her smile gay. She was playing up to Marcus, first, because he was the great Marcus, secondly, because she wanted her own way. And now she turned to the other couple.

"Don't let him send us home yet," she said in the tone of a spoiled child. "We're having fun. We can go to some other place."

The other man and girl nodded, and the actress turned to Marcus. "You see!"

Marcus sighed, then made one last stand.

"All the other places will be closed," he insisted.

"No, they won't. Blackie Joe's is open—the fun is just starting down there."

The revue producer made a grimace of distaste. "But that's such a dump."

Suddenly the actress seized Marcus by the arm and led him toward the doorway. She spoke rapidly and soothingly into his ear:

Marcus acquiesced with a faint smile and a characteristic shrug of the shoulders. The chauffeur of his handsome limousine sprang to attention and swung the car door open as the party came down the steps. They stepped inside and the car purred away.

Inside, Marcus felt the girl's head on his shoulder. He put up his hand and stroked her glossy hair, keeping his eyes straight forward.

Yes, he liked her, but he liked many women. Primarily, this shrewd revue creator was interested in women as talent for his gorgeous productions. His gift for "spotting" talent had made him Broadway's most notable figure in his line. To be "discovered" by Marcus meant fame for any girl.

The car drew to a stop before the shabby exterior of Blackie Joe's place; the party mounted the narrow, unpainted, somewhat rickety stairs; at the top the peep-hole panel of a locked door was pushed aside in response to Marcus' knock. The suspicious eyes of the door-keeper looked them over, then cautiously swung the door back.

Inside the tiny lobby they surveyed through another doorway a smoke-filled room and a crowded dance floor, where closely massed figures undulated to the muffled but insistent rhythms of jazz music. An odor of stale beer greeted them and again Marcus made a grimace of distaste, which he quickly stifled. When the check girl had taken their wraps they moved toward the main room.

This was slumming with a vengeance, thought the fastidious Marcus. In contrast to the brilliant and richly upholstered club they had just left this hideaway of the downtown back streets seemed strangely threadbare and woebegone.

The producer did not like the appearance of some of the patrons. As his party entered the low-ceilinged main room the dance music stopped and the couples threaded their way back to their tables. A curious and rather sinister quietness pervaded the room for a moment; Marcus and his expensively garbed friends were met by lowering stares that seemed threatening.

Marcus' keen, darting glance caught the covetous gaze of a man at a nearby table fixed on the heavily jeweled hand of his actress friend. Without a word the producer stepped in front of her protectingly. And then—

Suddenly the figure of Blackie Joe himself appeared across the room. He strode toward them rapidly with his best welcoming smile.

"Well, Mr. Marcus, this is a great honor!"

Marcus relaxed with a sigh of relief and took Blackie's outstretched hand. Blackie turned toward the back of the room, calling:

"Hey, Al! Ringside table for four!"

Al Stone, the head singing waiter and prize comic at Blackie's place, spun about. From their appearance these were important people.

"This way, ladies and gentlemen. Here's a nice spot."

The party relaxed about the round, white-topped table. Then Marcus, czar of the Broadway revues, turned to give the order. He looked up into the handsome, intelligent face of Al Stone, the obscure performer. As he

APPETITE IMPROVED QUICKLY

Enjoy the Taste of Food If you have no desire for food, and you feel out of sorts, and depressed, stimulate your digestive organs. Try Dr. Carter's own formula. These pills taken after meals will aid digestion, relieve the gas, regulate the bowels, expel constipation poisons and arouse appetite. All Druggists 25c and 75c red pkgs.

CARTER'S LIVER PILLS

did the actress next to him whispered, "Four beers?" Marcus nodded and repeated the order to Al.

The waiter straightened up and looked about for Blackie. These people were important, but he couldn't find the order until he had the high sign from Blackie. He caught Blackie's eye and saw his right hand go up with the okay gesture. Then he turned away.

Who were these people he wondered, toward whom the boss behaved so deferentially? Well, it didn't matter. You could see, to look at them, they had plenty of jack. Later he would sing one of his best comic songs for them. They would probably loosen up with a good tip.

Someone else was speculating on the Marcus party, too. In the background, several tables away, stood Grace Farrel, the cigarette girl, her slim fingers resting on her tray, which was suspended from her shoulder by a wide ribbon. Her eyes were wide with awe, for she had heard Blackie Joe whisper the words, "Marcus of Broadway."

So this was the legendary Mr. Marcus, who made performers famous. But the thoughts of little Grace were not for herself. They were for Al Stone. Even as Al leaned over to take the Marcus order her gaze had been alight with admiration for the singing waiter. If only Mr. Marcus knew how smart Al was, how funny he could be, what wonderful songs he wrote!

She tried desperately to catch Al's eye. She must reach him and tell him the name of this distinguished personage!

Big Aviation Merger

Saskatchewan and Alberta Interests Will Make United Bid For Mail Contract

In the biggest aviation merger in the history of western Canada, commercial aviation interests of Saskatchewan and Alberta have united under the name of the Great Western Airways, Limited, according to announcement made by Capt. Fred. R. McCall, managing director of the Calgary Flying Company.

Commercial Airways, Ltd., Edmonton, and Commercial Airways, Ltd., Regina, decided at a meeting in Regina, to pool their interests with the Great Western Airways, Ltd., Calgary, and make a united bid for the trans-Canada air mail contract.

Arrangements have already been completed for financing the Dominion mail contract to the extent of \$1,000,000 if it is awarded, Capt. McCall announced.

The Great Western Airways will function as one company under the general management of Squadron Leader G. H. Tudhope, who is at present supervisor of airports and airways for the Dominion government. He has accepted this position with the new aviation merger.

Turner Valley Oil

Now Producing At a Rate Of Over 830,000 Barrels Annually

In April, 1929, the Turner Valley produced 54,904 barrels of crude naphtha, and 14,303 barrels of crude oil, making a total of 769,207 barrels of oil and naphtha during the month. This is at the rate of over \$30,000 barrels annually compared with 481,000 in 1928. From the present rate of increase it seems likely that the Turner Valley will produce well over 1,000,000 barrels this year.

Time Has Tested It.—Dr. Thomas' Electric Oil has been on the market upwards of fifty years and in that time it has proved a blessing to thousands. It is in high favor throughout Canada and its excellence has carried its fame beyond the seas. If it were double the price it would be a cheap liniment.

A man, as he manages himself, may die old at thirty or young at eighty.

Britain Likes Canadian Honey

Is Growing In Popularity Says Assistant Trade Commissioner

"Honey is fast becoming a staple food on the British breakfast table, and the Canadian product is enjoying a growing popularity," writes Lester S. Glass, assistant trade commissioner at Bristol, in an article in the "Commercial Intelligence Journal." White clover honey and orange blossom honey are well thought of and South American white honey enjoys a high place in the estimation of the buying public. The British statistics for the calendar years 1924 and 1927, show a total import of honey of 73,251 cwt. and 84,415 cwt., with a value of £201,962 and £221,067 respectively.

SKY TESTED

Your modern high-speed motor hums the tune of faster transportation. In speed, power and flexibility, the motors of the highway reflect the influence of the motors of the sky.

The oil that was "good enough" for the motor of 1925 is not good enough for the motor of 1929. Higher speeds, higher temperatures, higher compressions, have created more difficult lubricating problems and demand better oil.

Because Marvelube meets the high temperatures and high pressures of airplane operation it is the ideal lubricant for the modern automobile engine. Its rich lubricating properties are inherited from its base-Peruvian Crude.

On the highways as in the skyways, Marvelube gives smoother performance, lessened depreciation and real operating economy.

There is a grade of Marvelube refined to meet exactly the specifications of your car, truck or tractor. See the Marvelube Chart at Imperial Oil dealers and service stations.

BETTER THAN WE KNOW

Whatever the people of our community do for better conditions and in the line of public improvements is often counted only for the immediate benefits it brings. But to build for this year alone, or even for the next five years, is not the end. Undertakings, to be of lasting value, must be those conceived and accomplished in the light of future as well as of present needs.

We are inclined to want to spread more optimism than pessimism concerning the things that have been done in Didsbury because results of the past years are already showing up on the side of good. Nor do we refer only to the material improvements such as roads, bridges, streets, buildings and other public works. Especially can the people of Didsbury commend the work that has been done among its truly great assets—its boys and girls who, in that higher and finer definition of youth have ceased to be considered as "problems," but more as normal human beings seeking the right knowledge of life and the proper expression of their talents and energies.

But whether it is a street being paved, a building erected, a hand clasped, a song being sung or a soul being reconstructed, there is a mighty hope for the future if the process is one that makes for lasting and good effects in the days and years that are to come. Sincerity of purpose is one corner-stone to permanency.

A SHARE IN SUFFERING

Through modern miracles of transportation and communication the world is brought to our doorstep. We take our profit and our pleasures from the offerings of a continent and from beyond the seas and all corners of the world. We are no longer citizens of a single town or city, but of a mighty nation, and, indeed, of the world. Everything that concerns the world for good or ill in some way concerns also ourselves.

We must take our share in the sorrows of the world no less than in its generous gifts. We cannot close our eyes and ears when our neighbors at the far end of the land or across the seas are stricken with disaster and suffering. To do so is to deny our citizenship in a nation and to evidence a selfishness which will accept the benefits of civilization but refuse its responsibilities.

It is not sentiment or sympathy alone which makes a claim upon us when tragedy sets its heavy hand upon a corner of the world. Our clear duty is also involved. All the advantages of civilized society depend upon the fact that the blessings of life are shared. It is equally clear that all must share the sufferings of society and contribute to bearing and easing its burdens.

FAIR PLAY

In these days of widespread interest in games and athletics, fair play and good sportsmanship have become something of a creed. The crowd roars its approval of the man who is modest in victory and smiling in defeat and is quick to detect and blame the spirit of personal bitterness in the strife of sport. It glories in the contest but insists that fair play shall govern it.

We are likely to be less sensitive

LOCAL & GENERAL

Mr. E. G. Ranton was a business visitor to Red Deer on Monday.

Mr. John Tully, a former Didsbury resident, motored up from Nebraska last week end on business.

Rev. A. Traub left Tuesday last for Alaska where he will attend a 2 weeks' series of special meetings.

Didsbury's annual Fair and Exhibition, Wednesday, August 14th. Plan your holidays accordingly.

Mr. William Teskey of Calgary was a week end visitor at his home here.

Mr. and Mrs. J. Clarke and family left on Saturday afternoon for a three-weeks' motor trip to the U.S.A.

Mr. and Mrs. N. Eckel, and son Robert, were visitors at the Stampede in the southern city Tuesday and Wednesday.

The prize lists for Didsbury's Agricultural Fair will be off the press this week end. Get your copy from C. E. Reiber, Sec.-Treas.

Mr. and Mrs. L. B. Fulkerth left on Tuesday by motor for Iowa, Montana and other U.S. points. Walter and Det. Fulkerth will be chauffeurs on the journey.

Mr. Bennie Robinson returned on Sunday from Bruderheim, Alta., where he has been relieving the manager of the Royal Bank for the past month.

A number of Didsbury baseball fans journeyed to Carstairs Monday evening to witness the Crossfield Carstairs game, the first game of the first round of the provincial play-off. Crossfield won 11-4.

The last place she wanted to be was in a policeman's arms! See mystery and romance in "The House of Scandal," at the Opera House, Didsbury, Wednesday, July 17, 8:30 p.m.

and sensible when the conflict is one of ideas. We are too ready to accuse a man of insincerity, double-dealing and ignorance simply because we do not agree with him. We allow our prejudices to bring a sinister note into our debates and controversies.

This sort of thing denies the spirit of fair play in the province where we need it most. When a man announces his opinion or doctrine, he offers it to the public test of the truth. It should be sufficient that it stand or fall by that test alone. To cloud the issue with bitter passions and personalities is to prove ourselves disloyal to the truth which we profess to seek. It is neither fair play nor good sportsmanship, and it wins no victory that is worth while.

LIFE SAVING

During the summer months there is nothing that youth enjoys so much as outdoor bathing. Whether the water is clean or the particular stretch of it safe is really a matter of little importance to it. Youth rarely takes time to consider consequences, and is rather scornful of the individual whose motto is "Safety First." In consequence summer after summer young lives are lost that can be ill spared. Young lives wasted in almost every case.

Every child should be taught to swim. The younger the pupil the easier is he taught. Quite small children rather resemble frogs, they instinctively strike out in the correct way when they find themselves in water. Instruction in swimming should form part of the education of every boy and girl.

It is a healthful exercise. It is a safeguard against accidental death by drowning. It may be and frequently is the means of saving life for others.

First Aid to the apparently drowned is nearly as important as the ability to swim. Instruction in the one means instruction in the other. Help protect the youth of Alberta by learning to swim.

The Hospital Board, Innisfail, in presenting its views on the proposed addition to its present hospital, stated recently that with a 13-bed institution which has been more or less overcrowded since its opening in 1925, during the past nine months up to April 30 of this year, the average number of patients per day have been 18.2 adults and 3.3 babies. ? ?

Knox Church Sunday School will be held as usual commencing this Sunday.

Mr. and Mrs. Brightman and family are holidaying around Radium and Golden.

Mr. H. E. Pearson returned last week from a two weeks business trip in the Peace River country.

Messrs. Alex McNaughton and Lorne Frey motored to the Calgary Stampede Wednesday afternoon.

Mr. and Mrs. W. H. B. Sharp and son, Gray left Sunday last by motor for a two weeks' trip to their former home at Vancouver.

The recent much-talked-of screen story, "The Singing Fool," appears in our columns beginning with this week's issue. "Start Chapter 1 today."

Miss Ruth Moyle who has been teaching at Champion and Miss Winnie Moyle of New York are spending the summer holidays at their home here.

Beautiful Mary Astor and handsome Lloyd Hughes in a comedy-drama of a princess who wanted to be just another girl—at the movies in "Heart to Heart," Saturday, July 13.

Salesmen Wanted—Fuller Brush Co., wants two dependable men to advertise and supply Fuller Brushes in this district. Good earnings to hard workers. Summer or permanent. Apply 409 McLean Block, Calgary. 28-2

ITEMS OF INTEREST

Revised figures show that during 1928 the Fish Culture Division of the Fisheries Branch, Ottawa, distributed 470,302,380 fish and fish eggs to assist in maintaining and increasing Canada's fishery resources. The distribution was over 59 per cent larger than in 1927 when the total was 295,283,772. A feature of the 1928 work of the Division was the increasing attention to the propagation of game trout in response to public desire.

During the year two new hatcheries were constructed in Nova Scotia for salmon and trout, a pickerel hatchery in Manitoba, a whitefish and pickerel hatchery on Lesser Slave Lake, and a trout hatchery in Waterton Lakes Park, Alberta, so that the Division now operates 30 main hatcheries and ten subsidiary hatcheries, in addition to a number of salmon retaining ponds and egg collecting stations. The Division also placed nearly 45,000 fry and older fish from other waters in 26 lakes and streams.

Herbert, Sask., organized a flying club some few weeks ago, and are endeavoring to secure the co-operation of the Board of Trade to select a suitable landing field, and also in making arrangements with an instructor to visit the town each week for the purpose of instruction.

The contribution of some \$13,227 from the railway grade crossing fund as part of the cost of diverting certain roads in the northern section of the province and eliminating 10 level crossings was authorized by the Board of Railway Commissioners in session in Edmonton during the past week. This amount represents 40 per cent of the estimated cost of these diversions, the remaining portion of the cost being borne by the Alberta Department of Public Works. Dangerous level crossings will thus be avoided on the Edmonton—Lloydminster highway near Chipman, on the Wetaskiwin—Hayter road west of Camrose, on the Edmonton—Wainwright highway near Bretona and Fort Saskatchewan and a diversion will escape two

crossings on the Willingdon—Strathcona line.

Applications will now be received from those eligible for assistance under the terms of The Old Pension Act, it is announced by Alex Ross, Chairman of the Board. Application forms are available for all persons desiring to apply for pensions and arrangements have been made by the Board whereby applicants will be enabled to do so with the least possible difficulty. In rural districts applications will be received by the secretary-treasurer of the municipalities and in cities of Calgary, Edmonton, Red Deer, Medicine Hat, Lethbridge and Wetaskiwin applications will be dealt with the civic officers. In unorganized districts forms may be secured from the office of the nearest detachment of the Alberta Provincial Police.

An unfortunate death occurred

Tuesday of last week when Mrs. R. Schmies, a young lady residing in Herbert, expired while undergoing an operation for removal of the tonsils. Two doctors were present at the time the patient ceased breathing. The patient seemed to be supersensitive to a certain drug, a condition which medical science has so far found it impossible to guard against or test beforehand.—Herbert (Sask.) Herald.

Clears Skin of Blemishes

The Perfect Antiseptic Treatment

It is so easy to rid your skin of pimples, blotches, blemishes. Just apply the pure cooling liquid D.D.D. Clear and stainless, its soothing elements penetrate the skin and quickly drive away the irritation. ITCHING STOPS INSTANTLY. A 35c bottle proves its merit or your druggist gives your money back. D.D.D. gives skin health. (Use D.D.D. Soap.)

More Boys Planning to Make Buchanan's Alaska Tour

BUCHANAN'S BOYS AT LAKE ATLIN, B.C.

PANNING GOLD

BUCHANAN DRIVES A DOG TEAM

GEORGE E. BUCHANAN

George E. Buchanan, sponsor and backer of and roofer for the movement of boys to Alaska, is planning to take 50 or more to the far north the coming summer. Buchanan, who is president of the Detroit Coal Exchange and five coal companies and a bachelor, believes that a trip to Alaska, provided a boy partly earns his way, will be a wonderful formative incident in his life. He has already taken 300 boys to Alaska, and this will be his seventh annual personally conducted tour. The boys, ages 9 to 17, must earn one-third of the cost of the trip (\$125.00); the parents advance a third and Buchanan loans the boy one third, which is to be repaid later at the boy's leisure.

Buchanan, who gets letters from all over the United States and Canada addressed "Alaska, Buchanan, Detroit," tells the boy who writes to him direct from anywhere how he can earn his third by selling pencils, kitchen tongs, coal, steel ash baskets, etc. Boys who qualify go westward through Canadian Rockies, seeing Banff and Lake Louise, then north to Alaska on the "Princess Louise." They see the wonders of Alaska and return by the "Princess" to Vancouver and homeward through the United States, thus viewing the finest scenery in Canada, Alaska and the States. Buchanan goes with them on every trip and gives them his personal care.

When asked what he did if they got sick, he declared that they did

not get sick, or if they had a bit of indisposition, the wonderful climate popped them up and put them back on their feet immediately. "One boy gained 19 lbs. during the month's tour," said Buchanan, and every boy has gone home a better boy physically, mentally and as a young business man. He has seen Alaska's wonders and has earned part of the money to finance the trip, which covers about 8,000 miles and lasts a whole month. One of my youngest boys, who is 5 years old, has already earned about \$80, and if he gets his third together on his own efforts, he will be in our party this summer, even if he is only six years old. Any boy, anywhere can go, provided he gets his parents' consent and earns his third."

Constant daily testing and blending of the world's choicest teas give Red Rose Tea its inimitable flavor and never-varying goodness. Every package guaranteed.

RED ROSE TEA "is good tea"

RED ROSE ORANGE PEKOE is extra good
In the best package—Clean, bright aluminum

Apply the Same Principle

During recent years there has been a decidedly better understanding between the east and the west of Canada, and between the Maritime Provinces and the rest of the Dominion, based on closer acquaintance and knowledge of the problems confronting the people in each of the major sections of this far-flung country. There is today far less of sectionalism, prejudice and misunderstanding than in any previous period of Canada's history, and, happily, this spirit of goodwill and co-operation is growing more and more pronounced.

Anything and everything that will tend to promote this wider knowledge and better understanding should be done and encouraged. We believe goodwill and understanding can only be brought about and maintained by frankness and the dissemination of knowledge. That is, eastern people must be made and kept acquainted with actual facts about the west and informed as to the views, opinions and ambitions of the west, and, vice versa, western people must be informed in like manner about the east. And it is particularly the duty of the newspapers of the Dominion to discharge this patriotic duty.

It is in the performance of that duty we would draw attention to a recent editorial article appearing in "The Financial Times," Montreal, dealing with the subject of the revision of the Grain Act. To much of that article no exception can be taken, but the whole difficulty is that it is based upon an entirely wrong conception, which fact is made abundantly evident in the concluding sentence of the article, as follows: "The important consideration is to protect the buyer, which will at the same time be a safeguard on the dependable reputation of Canadian wheat in all markets."

This may be the eastern viewpoint, but we submit the western viewpoint, and that is that the word "producer" should be substituted for the "buyer" in the sentence quoted.

The person entitled to receive first consideration in matters affecting the grading, mixing, transportation of wheat is the man who grows the wheat, not the man who buys it, or transports it, or mills it into flour. The status of Canadian wheat in the markets of the world must remain unimpaired at a high standard, not so much for the benefit of and protection of the British or foreign buyer, but in the interests of and to protect the Canadian farmer who grows the wheat in order that he may obtain full value for his product and ample reward for his labor.

Submitting the western viewpoint for the benefit of eastern people, it may well be asked of "The Financial Times," and other exponents of its dictum that in matters affecting the grain trade of Canada the important consideration "is to protect the buyer," whether it, and they, are equally prepared to accept the principle that, in all matters affecting, say the customs tariff, the important consideration is to protect, not the manufacturer of the financier who has invested in manufacturing industry, but the great mass of consumers of Canada, the people who "buy" the products of these factories?

If it is the "buyer" of the products of the farm who are deserving of first consideration, and who above all should be protected, then pure logic must force acceptance of the principle that it is the "buyer" of the products of the factories who must likewise be given first consideration, and their interests recognized and protected first and foremost in all matters of tariff or other legislation affecting such industries.

In other words, according to the eastern view, as they would apply it to the farmer, it is not the industry that should be protected, or those who have made investments in industry and labor in it, but the buyers of the products created by such industry. The truth is, however, that when these same interests advance tariff and other arguments in their own behalf they directly reverse the principle, and resolutely contend that it is the producing manufacturers who must receive first consideration and be accorded protection, rather than the buyers, i.e. the consuming masses of the Dominion.

Good understanding and complete national co-operation between east and west cannot be built up in this way. It is impossible to apply one principle toward western agricultural industry and an opposing principle to eastern manufacturing industry. The same principle must be applied both east and west.

Double Jeopardy

A correspondent assures us that the following notice has been posted around about an electric station in Donegal: "Beware To touch these wires is instant death. Anyone found doing so will be prosecuted."

Emerald Lake, Yoho Park

Beautiful Emerald lake, in Yoho national park, British Columbia, was first visited by Tom Wilson in 1882 while searching for stray pack horses. As far as is known, he was the first white man to visit this lake.

Too Much ACID

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief. Please do that—for your own sake—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Settlement Scheme Nears End

Three Thousand Family Settlement Plan Has Been a Success

In a few weeks the 3,000 family settlement scheme will end and no project of like nature will take its place. Hon. Robert Forke, Minister of Immigration, stated recently. There was no desire to make the project an endless one by replacing settlers who had abandoned farms, he said.

The project had been successful in every respect, and Canada had acquired an increase of about 17,000 souls through it. Already 3,250 families had been brought to Canada under the scheme; a total of 520 families had abandoned their farms for various reasons; 31 had been deported; 72 had returned to Great Britain of their own accord, while 414 remained in Canada in other employment, either in agriculture or other work.

WHAT OUR GIRLS NEED

When Languid, Anaemic and Feeling Run Down

When a girl grows languid, dull and irritable, when her color fades and she becomes pale, you may be sure that the cause is anaemia, or impoverished blood. The bright, red color of the blood is caused by the presence in it of millions of tiny red corpuscles. It is these tiny bodies that carry nourishment from the blood to the tissues. They also cause the glow of health in cheeks and lips. When a girl's blood is deficient in these red corpuscles her body is under-nourished, her nerves starved, and there is serious danger of a decline. What is needed is an improvement in the quality of the blood, and it is a scientific fact that a course of Dr. Williams' Pink Pills will so enrich and purify the blood that all traces of anaemia and its accompanying weaknesses will disappear. As an evidence of the value of Dr. Williams' Pink Pills in cases of this kind, Mrs. John Finnis, Howland Station, P.E.I., says: "I am glad to take this opportunity of recommending Dr. Williams' Pink Pills. My daughter was in a badly run down condition; very pale, nervous and much under weight. We tried several medicines, but they did not seem to do her any good, so I decided to give her Dr. Williams' Pink Pills. Almost from the start she began to improve, and after the use of a few boxes she had gained in weight, her appetite improved and she had a better color in her cheeks. In fact she had fully regained her former good health. I would advise every mother of young girls to give them Dr. Williams' Pink Pills at the first sign of an anaemic condition." You can get these pills from any medicine dealer or by mail at 50c a box from The J. C. Williams' Medicine Co., Brockville, Ont.

Bad Either Way

Seot (to friend while visiting London): "Now, mon, I can't stand taxicabs! When I sit wi' ma back tae the driver, it makes me feel sick, and when I sit wi' ma face tae the taximeter, it makes me feel nae better."

Keep Minard's in the Medicine chest.

Refine Gold At Mint

Most of Canada's gold bullion is now refined in the Royal Mint at Ottawa.

Wretched From Asthma. Strength of body and vigor of mind are inevitably impaired by the visitations of asthma. Who can live under the cloud of recurring attacks and keep body and mind at their full efficiency? Dr. J. D. Kellogg's Asthma Remedy dissipates the cloud by removing the cause. It does relieve. It does restore the sufferer to normal bodily trim and mental happiness.

Canadian Jersey Breeders

Good Market In States For Canadian Bred Jersey Cattle

Writing from Tupelo, Mississippi, W. Elmo Ashton, fieldman for the Canadian Jersey Breeders' Association, points out that it is apparent to anyone going through the States of Georgia, North and South Carolina, Mississippi and Alabama that the southern states offer a great market for Canadian Jerseys. In the past year and a half these states have taken from Canada over 300 head of young bulls and heifers.

With a population that ranks 28th among the countries of the world, Canada is fifth in total exports and third in total turnover of trade.

For sunburn—apply Minard's Liniment.

Discover Radium Mines

Find In England Has Already Yielded \$5,000 Worth

Radium mines are not discovered every day, but some meteorologists, while exploring a lead near Matlock, England, had their candle lights extinguished by bad atmospheric conditions. They saw ahead of them a dimly lighted cave, and a sample of earth taken from the cave was sent to Mme. Curie, who declared it to contain radium. The mine and estate was then bought for \$450,000. Further exploration, it is stated, has resulted in the discovery of another radio active mine, which is now to be exploited. The estimated value of the radium already found is \$5,000.

Zeppelin's Flight Cancelled

Atlantic Trip Of German Dirigible Postponed Until 1930

A special despatch to the Telegraph Union from Friedrichshafen said that the trans-Atlantic flight to America of the dirigible Graf Zeppelin had been postponed until 1930.

A flight around the world for the big airship was scheduled to start about July 15.

The Graf Zeppelin's last attempt to fly to America ended on May 17, when crippled motors forced her to turn back over Spain.

Small Churches In England

What is said to be the smallest ecclesiastical building in Britain is St. Margaret's Chapel, Edinburgh. This little church is only 16½ by 10½ feet. Dorset church at Winterborne Thompson, is 23 by 14 feet. Churches at Culbone and St. Lawrence are also small, having less than 420 square feet of space.

Sheet Glass Factory

Calgary May Be Selected As Suitable Place For Establishing Plant

Calgary is very suitable for the establishment of a sheet glass factory, and it may be chosen as the site for such within a year, according to F. S. Hobbs, of Toronto, vice-president of the Consolidated Plate Glass Company, who has been inspecting various cities in Western Canada with a view to locating a branch plant. A big business is being done in plate glass in the Prairie Provinces, he said, making it advisable for the firm to enlarge its present holdings.

Unless worms be expelled from the system, no child can be healthy. Mother Graves' Worm Exterminator is an excellent medicine to destroy worms.

Believe It Or Not

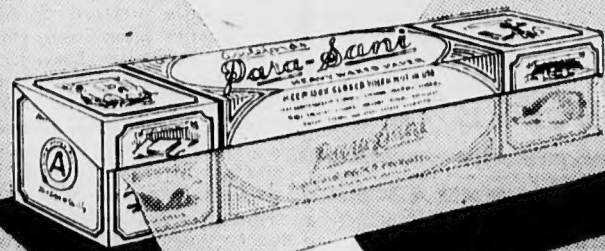

A small tortoise, on which Mrs. Sarah Blair, now dead, carved her initials and the year "1862," 67 years ago, has been found by her daughter, Miss Mary Blair, within a mile of the original Blair home at Scottsburg, Ind.

In The Locker Room

Minard's is the stand-by of those who take care not to suffer from stiffness and aching muscles.

Foods Stay Fresh Longer This Way

Covered with Para-Sani Heavy Waxed Paper goods that usually stale in a day or so stay fresh for quite a long time. Try it. Get Para-Sani in the handy, sanitary, knife-edged carton at grocer, druggist or stationer. For less exacting uses get "Centre Pull" Packs in sheet form.

Consumption Of Wheat Found To Have Declined Considerably In Recent Years

Is wheat bread no longer the stout staff of life it used to be? Statisticians whose business it is to look into the matter find that the consumption of wheat has shrunk from 5.6 bushels per capita in 1913, to 4.3 bushels per capita in 1926. Into the cause of this decline the United States senate has ordered the secretary of agriculture and the secretary of commerce to investigate. These two departments of the Washington government are to report to the senate not later than the beginning of the session of congress which meets in December.

The result of that inquiry will be interesting to all countries in which wheat is produced on a large scale, and to no country more than to Canada. They will be curious to know if people are changing their habits of eating, and are finding more satisfaction in supplementing their grain food by other edibles. That there has been a remarkable increase in the consumption of green vegetables and fruits and of preserved vegetables and fruits is a notorious fact, but it would be surprising to learn that the consumption of these foods has gained upon the consumption of wheat products so as to displace almost 25 per cent. of the latter. Green vegetables and fruits in the form of salads have undoubtedly taken a considerable percentage of the demand that formerly went to meats, but their part in lowering the consumption of bread was not generally suspected to be great. Yet let any observer of people who take their lunches at cafeterias speak and he will probably say that it is noteworthy how generally they pass by the bread rolls and biscuits to fill their order from other edibles.

Tastes change, new appeals to the appetite are brought forward, and the advice of dieticians is being followed as it never was followed before. It seems improbable that the decline in the consumption of wheat bread is owing to enforced frugality. A very large part of the world's population can afford better meals than they could before the war. If, as appears to be the case, people diversify their foods more than in former times, the hint should be taken by our western farmers to diversify their agriculture and produce more kinds of foodstuffs than they now produce. Mail and Empire.

Moose Jaw a Milling Centre

Is Now the Second Largest Milling Centre in Western Canada

Moose Jaw is now the second largest flour milling centre in Western Canada. The Robin Hood Mills produce 4,000 barrels of flour, 1,250 cases of cereals and a heavy tonnage of standard stock foods every day. Moose Jaw is also the Prairie livestock centre and headquarters of the Saskatchewan Feeder Show and Auction Sale, with 3,000 head of cattle and 10,000 sheep on show and sale every October.

Encourage Sheep Raising

Project Launched in Manitoba To Place More Sheep On Farms

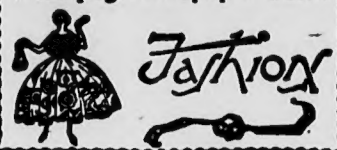

The plan recently launched by Lieut.-Governor J. D. McGregor, of Manitoba, to place more sheep on the farms of the province, and which led to the formation of the Manitoba Livestock Credit Company, to finance the project, is making headway in the Brandon area. A committee has been appointed, with J. C. Riddell, manager of the Canadian Bank of Commerce, as chairman, to handle applications for sheep. The committee reaps no pecuniary gain and railways, banks and other large financial bodies are backing the project.

Exhibit Canadian Furs

Proposed To Send Collection To Fur Exhibition At Leipzig, Germany

An exhibit of Canadian furs valued at \$75,000 will be included in the fur exposition in Leipzig, Germany, this summer, if plans of leading Canadian buyers mature. Consideration is now being given by Hon. James Malcolm, Minister of Trade and Commerce, to a proposal that the Government bear the expense of erecting and staging the exhibit. A collection of the most beautiful furs produced in this country is being made for the purpose.

Winnipeg Newspaper Union

NOVEL TWO-PIECE DRESS

Novel ideas now appear on frocks for the younger fashionables. In Style No. 875 for instance, the separate blouse with inset chemisette is gathered into band at lower edge to affect smart tuck in type. The two-piece skirt with plaited insets, is attached to an underwaist. French blue linen with white vestee, printed sateen, blue and beige jersey, printed and plain silk crepe, dainty printed wool challis, colorful rayon and wool crepe are smart and serviceable. Pattern comes in sizes 6, 8, 10, 12 and 14 years. For the 8 year old miss 1 1/2 yards of 40-inch material with 3/4 yard of 36-inch contrasting, and 1/2 yard of lining is all that is needed. Price 25 cents in stamps or coin (coin preferred). Wrap coin carefully.

We suggest that when you send for this pattern, you enclose 10 cents additional for a copy of our Spring Fashion Magazine. It's just filled with delightful styles, including smart ensembles, and cute designs for the kiddies.

For Land Settlement

J. F. Weston, vice president of the Colonization Finance Corporation of Canada, Ltd., and managing-director of the Imperial Life Insurance Company. The Colonization Finance Corporation has entered into an important agreement with the Canada Colonization Association for the settlement of privately owned lands, says the Department of Colonization and Development, Canadian Pacific Railway.

Realizes Importance Of Canadian Trade

France May Make Another Trade Treaty With Dominion

France regards Canada as one of the best fields for monetary investment in the world and realizing the importance of the Dominion appears likely soon to enter into another trade treaty with this country, wider in scope than the one now in effect, in the opinion of Hon. Philippe Roy, Canada's minister to France. Mr. Roy who was in Vancouver, planned a trip into the Peace River District before returning to France.

Both France and Canada appear to realize the advantage of further mutual trade concessions said Mr. Roy, and a growing trade between the countries can be expected. Mr. Roy also visited Edmonton, which was his home prior to 1911.

"I want to see all of this country that I can," he said, "because I am going to do a great deal of talking about it when I return to France."

Canadian Grasses

Scientific Study Will Result In Increasing Value Of Pastures

The scientific study of Canadian grasses has brought such good results that the Canadian farmer, in certain circumstances, will be able to triple the value of his pasture, Dr. Frank T. Shutt, Dominion chemist from Ottawa, told the Dominion Chemical convention at Toronto, in the course of an address on the subject of the experimental farms.

A Real Optimist

"Now, young sir, what is it you want," said an old woman who kept a toffee stall to a little boy.

"Nothing missus," replied the lad; "I just come to see what I might have got if I hadn't lost my penny!"

American Universities To Put On Special Course For Criminal Research Work

Buffalo Herd Menaced By Wolves

Pack of Wolves Play Havoc With Buffalo In Slave Lake Reserve

Wolves are taking a heavier toll of buffalo from the Slave Lake reserve than Indians or disease, states J. G. D'Aoust, former warden in the reserve, who has just reached Edmonton from the north.

There is one pack of wolves in the park, between ten and fifteen in number, which kill upwards of a hundred buffalo each year, despite the efforts of the ten guardians who are continually hunting the grey killers. D'Aoust was stationed on Slave River, 35 miles north of Chipewyan and patrolled a line some 65 miles in length. In this section alone he found the remains of 11 buffalo that had been killed by timber wolves during the past winter.

Although upwards of 10,000 buffalo have been shipped into the reserve by the government, D'Aoust declares that at the most there are not over 5,000 animals here now, including the original herd of 1,500 wood buffalo. He estimates that 75 per cent. of the yearlings shipped in have died from injuries received in transit and the flies which they had to face on being freed.

Indians living on the area enclosed by the reserve at the time it was set aside are permitted to continue to trap and hunt there, but they cannot kill any buffalo. It is very rarely that they break this regulation. Whites are not allowed to hunt or trap within the reserve.

Solves Old Problem

Geological Survey Tells What Becomes Of Rain Water and Snow

What becomes of the rain water and snow?

The question has been answered by the geological survey of the department of the interior, at Washington, after a three-year study of Pomperaug Basin, in Connecticut, which is regarded as a typical area.

Of about 44 inches of water that falls annually in the basin as rain or snow, 21 inches flows out through streams. Twenty-three inches of it is returned to the atmosphere by the process of evaporation from the soil, water surfaces and surface objects, and from being drawn up by roots of plants and given off through their leaves.

Of the 21 inches that is carried away by streams, 12 inches never gets into the ground but immediately runs off, while about eight inches of the river water first finds its way underground and reappears in springs and seeps.

Sunday School Teacher (reading of the deluge): "And then it rained for forty days and forty nights."

Bright Pupil: "And were the farmers satisfied then, teacher?"

SUN PARLORS FOR CANADIAN TRAINS

Parlor cars with glassed-in observation platforms are the latest addition to the equipment which the Canadian National Railways are using on their trains between Winnipeg and Duluth and the boat trains between Winnipeg and Port Arthur. Vitrified glass is used in these sun parlor cars, this type of glass letting in 75 per cent of the violet rays—the health-giving part of sunlight—which are not able to pass through ordinary glass. The size of the windows permits unobstructed vision of the scenery and the cars have been tastefully decorated and furnished. They represent the most up-to-date type of rolling stock in use on the continent.

Indignant at the growth of crime on its body politics, its reputation smirched by the smoking guns of gangsters, the City of Chicago will cradle its own potential deliverer—the super-detective.

This creature, heretofore only a myth of fiction, will be made into flesh and blood to replace the policeman whose chief qualification often is but a stout heart.

Two of America's leading universities, both in Chicago, have hung up handwriting on the wall for the heretofore undetected murderer, thief, firebrand, kidnapper, racketeer and other transgressors on the peace and comfort of society. Police work will henceforth be a part of the curriculum at Northwestern and Chicago universities—and racket-ridden Chicago will be their research laboratory.

August Vollmer, chief of police at Berkeley, Calif., will head the new department at Chicago, and will inaugurate the course at the beginning of the fall semester next October. Leonard White, professor of administration and chairman of the local community research committee at the university, who worked on the plans with Chief Vollmer, said that while the course will be confined at the outset to the problems of police administration, it will become eventually a major study in which the student may work for a degree.

Every avenue of learning that can aid in the tracking down of a criminal will be thrown open to the embryo detectives, White said. The course eventually will be designed to permit special study of one or two years as well as the full four-year college course for those who wish it.

An inter-departmental committee will co-operate with Professor Vollmer to see that his students are well-grounded in all the sciences necessary to intelligent investigation.

The student undertaking the full course will study the chemistry of poisons, criminology, sociology, psychology, physics and anthropology and learn to apply the studies to the investigation of crime.

If People Had Time

Many Have Delusion That They Could Become Famous

Isn't it funny, too, how many of us harbor delusions that we could become famous or wealthy if we had time. We think that we could write a novel, or a play, or maybe a movie scenario if we had time. Or perhaps we could develop a new rose or a gladiolus, or an iris, that would make our name known throughout the horticultural world—if we had time. Or we might write poetry—if we had time. All these make pleasant dreams, but each of us has "all the time there is" and it is most likely that, if we were forced to take a chance, we would suddenly begin to do the things we have always thought we wanted to do.

Road To Sherritt-Gordon Mine

With the roadbed complete, laying of steel on the 42 mile railway branch, Cranberry Portage to Cold Lake, to serve Sherritt-Gordon, has started, and by the end of August the job should be near completion. Sherritt will then take in its 1,500 ton mill.

Farm for Sale

The Soldier Settlement Board of Canada offers for sale by public tender:

The South West Quarter of Section Fifteen (15) in Township Thirty one (31), Range Four (4), West of the Fifth Meridian, as described and subject to the exceptions and reservations contained in the existing Certificate of Title.

Terms of sale are not less than 20 per cent. of the purchase price in cash on acceptance of the tender, and the balance in fifteen equal instalments with interest at 6 per cent per annum on the amortization plan.

Each tender must be accompanied by an accepted cheque for \$100.00. If tender is accepted, this sum will be credited to the purchase price of the land. If tender is not accepted the money will be returned to the tenderer.

Tenders will be opened at Calgary, Alberta on Thursday, July 18th, 1929.

The highest or any tender not necessarily accepted. If the land is not sold on the date above mentioned the Board will be prepared to receive offers to purchase until such time as it is finally disposed of.

Tenders should be in plain envelopes marked "Tender for the purchase of S.W. 1-4 15 31-4 West Meridian."

Address tenders and enquiries to:

The Soldier Settlement Board
Southern Building, Calgary, Alberta.

Robert Eckel won first prize in the open horseshoe tournament at the Carstairs Stampede last Thursday.

Mrs. Annie Shantz and daughter Juergie who have been residing in California since last fall, returned to Didsbury last week.

Messrs. O. M. Old, Phillipson, Carleton Leeson, Richard Miller (of Innisfail) and Reid Clarke are leaving today for Banff and Lake Louise.

Here and There

(226)

A skin game.—Two young boys living 90 miles northwest of Edmonton started a coyote farm in 1927 by digging young coyotes out of the ground and confining them in a pen. They got 140 young animals and when their skins were mature sold them for \$12 each.

A southern packing plant specializes upon horse meat for shipment to parts of Continental Europe where it is very popular. It has been suggested that the nondescript range horses straying about Southern Alberta be herded for packing purposes. It is a pity someone could not figure out a similar way of consuming some of the old motor cars that are loose on the highways.

Twenty oil burners measuring overall 97 feet in length and weighing 725,000 pounds have been ordered by the Canadian Pacific Railway and will be in passenger and freight service through the mountains this summer. Each of them will do the work of two or more of the lighter locomotives. They are the largest in the British Empire and will revolutionize transportation in the west, it is predicted.

Victoria is having a mid winter golf tournament open to members of the local clubs and to guests of the Empress Hotel, and the players won't have to play in mittens and fur coats, either. In the east they have a game called winter golf that they play with bow and arrows on skis or snowshoes, but the golf at Victoria is the legitimate article. The game is played the year round in the equable climate of the Pacific coast.

Unique and luxurious cars, differing from anything operated in this country before, will be carried by the two crack trains of the Canadian Pacific Railway, the Trans-Canada Limited between Montreal, Toronto and Vancouver, and the Mountaineer, from Chicago to the Pacific coast, it has been announced. The cars will have bath rooms, valet service, lounge and smoking space, and a solarium, with vitra-glass windows.

The sea is constantly productive of tales of adventure. A recently told story is that about Commander S. Robinson, O.B.E., of the Canadian Pacific liner Empress of France who turned his ship into the face of a hurricane and went 500 miles out of his course to take aid to injured seamen on a storm tossed Japanese freighter. The great liner waited beside the freighter, which had been badly battered by the huge waves and some members of whose crew had been injured, but found it impossible for boats to pass between the two ships to convey a doctor. After waiting for half a day the master of the Japanese ship reported that he could make port, and the Empress of France continued on her interrupted voyage.

Mountain View Notes

A dance will be held in Community Hall on Friday, July 26. Olds orchestra.

The Mountain View W.I. will meet at the home of Mrs. George Burns on Thursday, July 18. We are expecting Mrs. Boyce our constituency convenor.

A very successful Baby Clinic was held at the hall last week. Nineteen babies were examined by Nurse Davidson.

A three-day sewing course will be held in the Community Hall beginning Monday, July 15. Anyone is invited to attend. For particulars apply to Mrs. M. E. Wood, Secretary.

Church services will be held in the hall this Sunday at 7:30. Rev. Mr. Ware will be in charge.

A very successful picnic was held on Dominion Day, about \$75 being cleared.

Mr. and Mrs. W. J. Hillyard motored to Edmonton over Dominion Day and have as their guests at their home Miss Jean Cummings of Edmonton, and Mrs. Hillyard's two nieces, Misses Clara and Una Dickson of Clairmont, Alberta.

A SCHOOL CREED

A creed that has been adopted by certain schools in Wisconsin, might wisely be adopted by every school everywhere.

1. I believe in loyalty to my school to my home, to my city, to my province and to my nation.

2. I believe it is my duty to be careful of books and other school property which have been provided for me that I may secure an adequate education.

3. I believe that it is my responsibility to keep myself physically strong and mentally fit, realizing that my success in school and in life depends on a strong body and a sound mind.

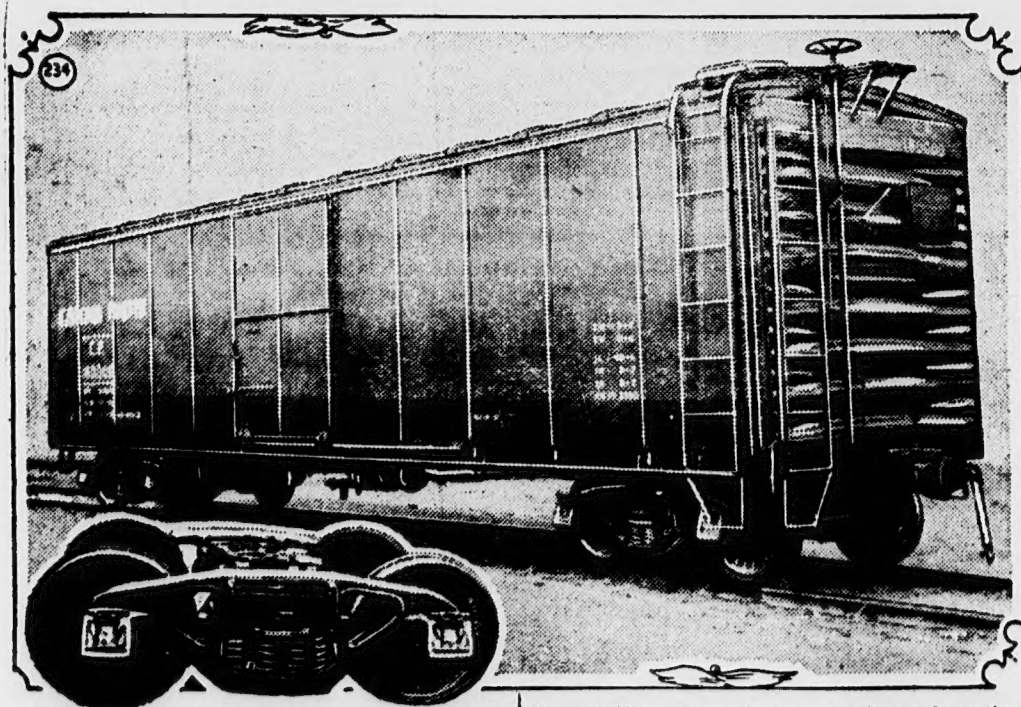

4. I believe that school life is a part of the community life, and that as a student I have as definite responsibilities as the adult citizen.

5. I believe in democracy and the things for which it stands, and I shall miss no opportunity to prepare myself adequately for the responsibilities of citizenship.

Mr. and Mrs. C. Studer motored to Calgary on Tuesday evening.

Messrs. Bruce Parker and Doris Wilson motored to Edmonton over the week end.

Steel Cars Now for Freight Service

Steel is replacing wood in freight service and seventy-five hundred of the new freight cars now on order for the Canadian Pacific will set a new standard in grain and general freight service. These cars are not in replacement but in addition to the wood cars already in use, and will furnish a greater margin of safety, more speed and longer service while eliminating leakage.

They will have a capacity of 2,000 bushels of wheat and will considerably speed up the movement of grain. Rivetting of all joints and connections will reduce to a minimum possibility of loss of grain and the car itself will be more solid and will possess greater rigidity. The roof of the car will be steel as will also the whole structure, but the sides will be wood lined inside.

Additional safety will be provided by a new type of truck having a cast steel frame. These truck side frames which represent a new standard of Cana-

dian Pacific equipment, are one integral casting. Elimination of parts in the car proper is another noteworthy feature.

Dimensions of the car are 40 feet 9 inches in length, 8 feet 7 inches high, and 8 feet, 7 1/4 inches wide. They will have 5 foot side doors and a capacity of 120,000 pounds.

The new cars represent an important advance in railway freight transportation on this continent and they have been developed more directly to keep pace with the development of the west. In recent years crop acreage has increased. Car loadings have increased in like measure. Improved harvesting machinery has speeded up delivery to the rails and necessitated still more efficient handling on the part of the railway companies.

Delivery of the new cars will be made in ample time for the harvest of 1929 and the Canadian Pacific may be expected to again break the record of crop handling.

Sell It-- with a Classified Ad.

No matter what you have for sale, poultry, livestock, farm machinery, or anything else around the farm or home, you will find a ready market through a Classified Advertisement in the Pioneer. This paper is read in hundreds of homes and its classified column receives close attention.
